

SELF- EVALUATION

Students will write a journal and a final report.

Journal

You have to write a few lines about each of the classes in the course "Education and Multilingualism ". You have to write about the experience of attending this class (difficulty of using English in different activities, parts of the lesson you find more interesting, the tasks you have to complete, etc). You can also make comments about the languages you use and you want to use. It is important that you reflect on your own progress. You have to write a total of 14 entries, one per week. Please notice that even if you cannot come to one of the classes you still have to write the entry about your work for the next class. You have to write the entry before the deadline and upload it to Moodle.

Final self-evaluation report

I would like you to write a short report (about 500 words) about the course. Please reflect on your own learning process and your work. Did you learn a lot? Did you do complete all the tasks? Did you read all the material?
