

# CONVERTIDORES ELECTRÓNICOS DE POTENCIA DC-AC O INVERSORES

---

Bibliografía

Curso OCW 2016

F. Javier Maseda

Departamento de Ingeniería de Sistemas y Automática

## BIBLIOGRAFÍA BÁSICA

- **Power Electronics**, Daniel W.Hart. Ed : McGraw-Hill Education, (2011).
- **Power Electronics and Motor Drives: Advances and Trends**, B. K. Bose. Ed.: Elsevier, (2006).
- **Power Electronics: Converters, Applications, and Design**, Mohan, Underland and Robbins. Ed. John Wiley and Sons, Inc, (2003).
- Application Note: **AN1910** (2001) , **AN1930** (2002) (Freescale)
- Application Note: **AN-1044** (2002) and **dt98-2** (2001) (International Rectifier)

## REVISTAS

- IEEE Transactions on Education
- IEEE Transactions on Power Electronics
- International Journal of Engineering Education
- International Journal of Electrical Engineering Education
