

**TEACHERS**

**Dr. Nerea Toledo Gandarias**, obtained here BSc. and MSc. degrees in Telecommunication Engineering in 2007 from the University of The Basque Country (UPV/EHU) and the International PhD. degree in 2012 from the same university. Since 2008 she works as a lecturer and a researcher in UPV/EHU, and since 2011 she holds a position in the department of Expression Graphics and Project Engineering teaching Engineering Projects, Project Management and Project Control subjects in the Telecommunication Engineering Master, Industrial Engineering Master and in the European Master in Project Management - EuroMPM. She also supervises final degree projects and final master thesis in those postgraduate studies. Currently, she is the responsible of the EuroMPM Master and head of the Academic Commission. She has more than 15 publications in journals with impact factor (JCR), several book chapters and contributions to international conferences. Her current research interests are cybersecurity and wireless networking in transportation, and earned value and maturity in project management.

**Dr. José Ramón Otegi** is an engineer and a Doctor in innovation project management and Master in Business Administration, with thirty years experience in the development and management of innovation projects for industry and local governments. He has participated as project manager in several European Commission projects, in Regional programmes for the promotion of the participation in European RTD programmes, and acts as external expert for IST programme since 1992. Important part of his work is the introduction of innovative techniques in organisations. He started lecturing in the Faculty of Engineering of Bilbao in 2001 and since 2009 he is the coordinator of the Engineering Projects section of the Faculty. He has been the coordinator of the Master and Doctorate programmes in Project Management. Current research is on Project Management, Sustainability and Creativity
